RENASCIMENTO-FIRENZE in esclusiva nella tua città**

TUSCANFARM is a family business. The Leoncini family has been in the farming industry for four hundred years and it's thanks to the vast experience acquired over such a long period that today it can offer a range of products which are real gourmet works of art. Unobtainable products are our speciality. The very best of Tuscan regional specialities and typical, local products are part of our exclusive range RENASCIMENTO. These products are genuine rarities which are slowly being wiped out, many are organic farming products certified by regional and national bodies. We only sell what we like ourselves and that's why ours is the best job in the world, in fact, if you don't have a real passion for these products it's unlikely that you'll really appreciate them. Production takes a very long time and quantities are limited and the totally manual packaging using beautiful, natural products takes time and patience. All this however makes our products exclusive, unrepeatable, and hard to compare with those available commercially, both in terms of quality and in terms of beauty. Our products reek of tradition and elegant refinement, with all the charm of Tuscany, that's why they're rapidly conquering the market. Pre and post-sales service is given a high priority with provision of taste briefings and photographic descriptions. **VALID TO 31.12.11**
